LEADERSHIP / EXECUTIVE / CAREER COACHING

As a professional coach, I work with emerging leaders to develop solutions to workforce challenges. Depending on what the client needs and wants, my role can evolve into consultant, advisor, or mentor to help the individual solve their challenge or advance in their path of leadership development. *(This is offered as a subscribed service, versus a seminar or single session.)*

My Values

- *Integrity* – do the right thing, the right way, the first time, for the right reason
- *Care* – show respect for everyone’s feelings, opinions, and individual differences
- *Engagement* – act in ways that are dynamic, charismatic, and inspiring
- *Communication* – provide feedback that is positive, constructive, objective, and practical
- *Excellence* – champion high standards, and challenge others to do the same

Award-Winning College Professor | Certified Leadership Coach

“Michael is someone who truly loves helping others grow both professionally and personally.”
